

# Welcome to our public consultation

**Thank you for taking the time to attend this exhibition. We are seeking your views on the preliminary design for a wind farm named ‘Beinn Bheag’, approximately 26km west of Invergarry in the Highlands.**

RES believes in meaningful and effective consultation, and we aim to engage early with the local community and key stakeholders in order to facilitate constructive consultation. This helps to identify issues and concerns, as well as benefits and opportunities, which we will consider when developing and refining the design and delivery of the proposal.

This exhibition forms part of our pre-application consultation. We have provided a range of information including details of the site location, proposed turbine layout, likely turbine delivery route and environmental considerations.

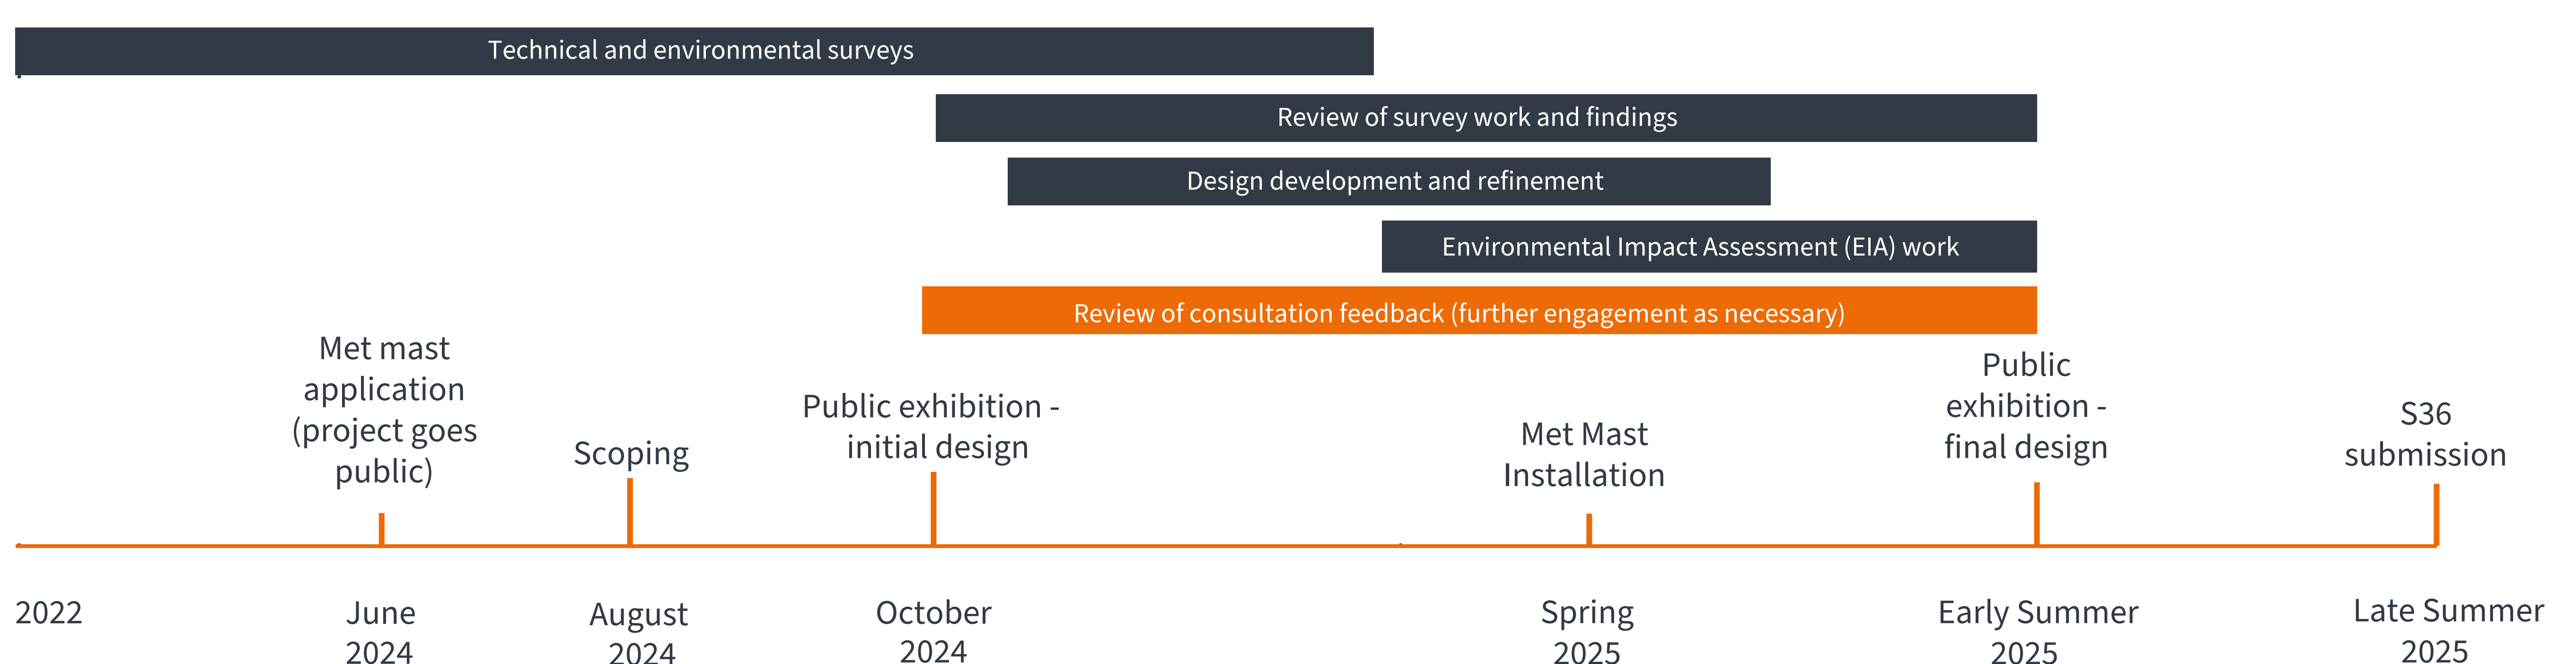

In addition, we have provided visualisations comprising wirelines and photomontages to help give an impression of how the current site design and layout may appear from different viewpoints in the area.

We consider pre-application consultation a crucial part of the wind farm development process. This early-stage exhibition is designed to give you the opportunity to:

- **learn more about the proposal**
- **discuss any questions or views with our project team**
- **provide written feedback to RES on the proposal.**

Please take time to read the exhibition information provided and talk to our project team about any questions that you may have. All consultation feedback submitted to RES will be reviewed by the project team over the coming months as we continue the design process.

## Indicative timeline

## Beinn Bheag Wind Farm proposal
